Delivery Information

Delivery Time

Delivery in Cyprus requires 7-10 working days.

Delivery Protocol

- 2 delivery attempts
- SMS or Viber notification on the day of the delivery
- SMS or Viber notification in case a shipment is not delivered, with a link for scheduling another delivery or choosing local agency.
- Delivery note for every undelivered shipment due to absence of the recipient.
- The undelivered shipments return to the warehouse after 10 days of storage, from assignment date, including refused shipments

Volumetric Weight

The volumetric weight is calculated by multiplying all three dimensions of the package and dividing it by 3.000.

Volumetric Weight in Kilos = (length) x (width) x (height) cm / 3.000
